CFP.2412 with optional fascia panels, steps & guardrails.

The Centrefold portable staging system has been completely redesigned. The operation has been improved with a positive locking mechanism to hold the halves of the platform securely in their upright position. Weight has been significantly reduced with a lightweight but extremely strong extruded aluminium rim assembly, enhancing manoeuvrability and ease of transport. Additionally, the rim provides integral mounting for a range of quick release accessories, including steps, guardrails, fascia panels and linking.

Aluminium rim, specially designed to accept accessories. Deck featured shows standard non-slip surface, carpeting available on request.
